Hot spot: Bar do Guincho

*Where exactly is this
little slice of paradise?*

It's located on the wild and romantic Costa do Sol, not far from the well-known Praia do Guincho between the idyllic UNESCO World Heritage Site of Sintra and the chic small coastal town of Cascais. Many fascinating places are just waiting to be discovered all year round: whether it's Cabo da Roca, the most westerly point of continental Europe where you can experience the most magical sunsets over the ocean, or the vibrant capital city of Lisbon with its winding streets and artfully paved squares – just a 30-minute drive from our exclusive resort.

THE BEST TIME TO TRAVEL?

Always! Since after a summer that you can rely upon to be a hot one, even in the autumn and winter months you'll still find here pleasant temperatures of up to 20 °C – perfect for exploring the beautiful landscape without getting into too much of a sweat. In high season, the Atlantic microclimate with its mild humidity creates an oasis of subtropical vegetation with temperatures ranging from 22 to 28 °C.

The Portuguese Riviera is also a synonym for fabulous beaches and incredible waves. Praia do Guincho is famous throughout the world as a real surfing paradise. People with skin or respiratory conditions will benefit from the healing properties of the salt water and the iodine-laden air. The stimulating climate boosts the immune system and keeps the body and mind active.
